8.2 The date for the written examination and the interview examination is on Monday, 20th July 2020.

8.3 On examination dates, the applicants must bring along original identification card or any document issued by the Thai government that contains a photo, a signature, and the 13-digit identification number of the applicant.

8.4 If the applicant fails to present any of the documents listed in 8.3, they will strictly be disallowed to enter the examination room and will be disqualified from the examination.

8.5 Every type of cheating will be seriously punished/monitored by the university. Cheaters will be disqualified from that examination and disbarred from further admissions to any programs of Thammasat University.

9. Examination dates, subjects and the announcement of eligible applicants for examination and exam results

Please check the attachment to this announcement.

10. Enrollment confirmation and student registration

Successful applicants must submit the enrollment confirmation form by mail or by hand with certificates of graduation to the program within the deadline. Details, schedules and notices on the examination will be posted on www.tds.tu.ac.th/dbtm.

11. Conditions for successful applicants who are eligible for Student Status Registration

11.1 Successful applicants must be registered as Thammasat University students within 14 days from the first day of the semester. In case of the applicant fails to do so for a justifiable reason, the registrar will grant a deferment that is no later than the first semester of the first academic year.

11.2 Applicants graduated from foreign institutions must clarify the original copy of the graduation certificate on the registration date. It can be subsequently handed to the registrar no later than the first semester of the first academic year. Otherwise, the register after must be terminated from the registration system.
11.3 A student enrolled in one program is not allowed to transfer to another program without appropriate reason. In order to do so, a written request must be submitted to the dean, in order to obtain approval from the faculty committee.

11.4 The student must receive approval from the faculty committee of the program to be transferred to. The duration of the study from the initial program shall be continued.

11.5 After the approval, the duration of the study shall be continued.

11.6 In case a registered student is subsequently found illegible or with prohibitive qualities,

   11.6.1 The student must be qualified as follows:

       (1) Graduate from programs mentioned in the announcement

       (2) To be classified as a patient or hindrance to study

       (3) Does not exhibit any degenerate behavior

       (4) Has not been disqualified from any higher education level program from the university or others for 10 years before the application process

Besides the qualification and restriction mentioned, the prospective student must be qualified by the program and the university announcement.

If any restriction listed in the paragraph is discovered in any of the graduated students, the registrar must report the case to the rector to revoke the student’s registration, in case the student has already completed the course.

Announced on 27 March, 2020
